Cardio Clean™

Food Supplement for a Healthy Heart

Cardio Clean[™] is a food supplement consisting of various necessary vitamins, minerals, nutrients and enzymes required by the body to repair itself. It also contains EDTA which is an antioxidant and can help clean the arteries through reacting with the atherosclerotic plaques, clearing up free radicals and also absorbing metallic ions from the blockages. It is your friend to keep your heart happy.

Cardio Clean[™] has 95%-99% absorption from the intestine. EDTA is a food supplement.

How to consume?

Cardio Clean[™] is available in form of a sachet. Each sachet contains 3.5 gm of powder, in which 1000 mg of EDTA is available. It has to be poured into 1 glass of water (approximately 200 ml) mixed & consumed.

Recommended Dosage

- 1 Sachet per day x for 30 days followed by 15 days gap. Then repeat 1 Sachet per day for 30 days

Maintenance (booster dosage)

- 1 sachet every alternate day for 6 months

Important

People with severe disease may need a higher intake of two sachets a day for 30 days and then come down to normal recommended intake of 1 sachet a day after 15 days gap.

Precaution

EDTA is taken out of the blood by kidneys like hundred of other chemicals, which are usually excreted by the kidney.

It is not fit for consumption for

1. Pregnant females/females trying to conceive.
2. People suffering from renal failure/function problems, or are suspected to be suffering from renal dysfunction.

Note:-

Cardio Clean[™] does not advice you to stop or reduce the dosage of allopathic or other medicines. Consult your physician, cardiologist for any withdrawal or stopping of medicines depending on the improvements.

Important Information

Cardio Clean[™] therapy is not a cure. It helps in removing calcium from arteries which may lead to more compliant arteries and this may lead to and improved general well being of the heart. It contains various vitamins, mineral and enzymes which are good for a person and can help him recover from debilitating illnesses of the heart including angina.

But it is not a cure. It is a supplement. It is an aid to help your body heal itself, help it do something it should be doing itself but is unable to do so. It is giving the necessary tools to the body help heal itself.
